

How to Register or Update Your PeachJar Account

PeachJar is an eflyer management system used by Evergreen Elementary School District (EESD) which allows parents to automatically receive approved eflyers in their inbox.

If you are new to school this year and are not receiving your school's eFlyers in your inbox, follow the instructions below to manually add your school to your PeachJar account. You will have an existing PeachJar account if your child was enrolled in an EESD school last year and you are currently receiving eflyers from that school.

To manually add or remove a school from your account...

1. [Log in](#) to your PeachJar account. (You may need to request a new password since all accounts were initially created for parents automatically.)
2. At the top, click on "My Account".
3. From the menu on the left, choose "Notification Preferences".
4. To remove a school, just click the Remove School button next to the name of the school you would like to be removed.
5. To add a school, click Add School(s).
6. Find the school you would like to add by choosing your country, state then district (Evergreen Elementary) from the drop down menus. The school list will populate below. Highlight the school you wish to add and click Add School(s).
